

### BOY SCOUT TROOP 229 VISITS ADAPTASOFT

*Winamac, IN* – On Friday, March 28, Boy Scouts from Troop 229 visited AdaptaSoft in Francesville as a part of their program in computer technology. Hosted by Joel Troxel, Chief Financial Officer of AdaptaSoft, the scouts learned a lot about the business side of computer technology. Joel gave the scouts an outstanding presentation on the skills that employers, customers, and businesses are looking for in people, and it was quite evident that the principles of scouting were a perfect match to those skills. The skills highlighted by Joel included communications skills, the ability to work as a part of a team, having a strong work ethic and being able to develop relationships of trust with people, showing initiative and continually learning new things to keep up with the changing needs of business, and being

able to solve problems. This visit met several of the requirements for the American Business merit badge, and it is clear that these skills can be carried with the scouts for the rest of their lives.

AdaptaSoft, Inc., was named "Pulaski County Business of the Year for 2007" by the Pulaski County Chamber of Commerce. Founded in 1996 out of a garage in Francesville, AdaptaSoft now employs 23 people and has over 100 corporate customers scattered around the United States. Many of the employees hold industry certifications, such as CPA (Certified Public Accountant), CPP (Certified Payroll Professional), and MCP (Microsoft Certified Professional), and AdaptaSoft is a Microsoft Certified Partner. AdaptaSoft makes extensive use of the Internet for marketing, education on its products, and technical support, and it sponsors a national user conference in Indianapolis each year.
